About me

I am final-year ICT student . Experienced in building and deploying Fullstack applications by Java, JSP/Servlet, and MySQL. Looking for a challenging Fullstack Developer job while continuously growing my expertise in cutting-edge technologies.

Experience

4/2025

-

6/2025

Project: Gym Management

- **Description:** An online website to manage gym members, trainers, and membership plans.
- **Technologies:** Java, JSP/Servlet, MySQL, HTML, CSS, Bootstrap
- **Responsibilities:**
 - Manage database for managing members, trainers, and plans
 - login and role-based access for admin and staff.
 - Created modules for registration, payment tracking, and attendance records.
- **Outcomes:** Streamlined gym management workflow, reduced manual tracking, and improved data accessibility.

10/2025

-

1/2026

Project: Student Management and Online Learning System

- **Description:** Develop an online platform to manage student information, courses and online learning activities.
- **Technologies:** Java, JSP/Servlet, MySQL, HTML, CSS, Bootstrap
- **Responsibilities:**
 - Manage database for user, course, enrollment and class
 - Login, register and manage modules
 - Post learning content for user
- **Outcomes:** Improved efficiency in managing student data and creating a user-friendly online learning environment.

Certification

- **IELTS 6.0 overall (2023)**
 - Speaking : 5.5
 - Listening: 6.0
 - Reading: 6.0
 - Writing : 6.5
- **OCP Java SE (2025)**
- **OCP Database (2025)**

Activities

- **USTH CODER CLUB (2023 – 2024)**
Member in Competitive Programming Team
